MONEY, BONDS AND STOCKS. An Unusual Duliness in New York, Total of Sales Being Only 86,000 Shares. NEW YORK, June 28. - Money was easy at 11

Prime mercantile paper, 426 per cent Sterling exchange was dull but steady at \$4.862 for sixty-day bills and \$4.884 for demand. The total sales of stocks to-day were 86,000 shares, including the following: Delaware,

Lackawanns & Western, 5,700; Erie, 2,900; Lake Shore, 3,250; Missouri Pacific, 5,568; Northwestern, 4,100; Reading, 17,300; St. Paul, 21,540. The indisposition to trade, even among the room traders, at the present, is something remarkable, and the stock market to-day reached the same of dullness, for though there was a quiet business done during the forenoon, the afternoon's trading was next to nothing the listed shares aggregating only 13,000 for the two hours from 12 to 2, while the business in the last hour was but little better. The market opened without special character, though the professionals were inclined to sell upon the newspaper reports of rate-cutting in the West,

which, however, had all been circulated yesterday. There was a fair demand from the "shorts," however, and the tone of the dealings was firm, though, except in St. Paul, Reading and Missouri Pacific, there was no animation whatever. Missouri Pacife became the feature. and on good buying advanced 14 per cent. while changes in the rest of the were confined to small fractions The grangers afterward came the front, and Burlington & Quincy advanced a like amount, but no further feature marked the dealings for the rest of the day and utter stagnation overspread the list during the afternoon.
Missouri Pacific, however, before noon, had lost
most of its early gain and retired below the opening prices, though it reacted again toward the close. At times some animation was shown in St. Paul and Reading, and a new pool was said to have been formed in those stocks on the "bull" side. It was announced that the Bock Island and St. Paul roads had sought an injunction restraining the Iowa commissioners from putting in force their new schedule of rates, but it had no appreciable ef-fect upon the course of prices. Outside of this the only item of news was the advance of coal rates, and even rumors were less prevalent than usual. The market finally closed very duil and steady to firm at close to the opening figures. The result of the day's trading is to leave almost

only | per cent. The railroad bond market was also very dull and featureless, though the tone of dealings was more decidedly firm, and most of the issues traded in show material gains over the last recorded sales. There was no special feature, however, beyond the strength shown by the Kansas & Texas issues.

Government bonds were dull and steady. State bonds were entirely neglected. Closing

CHICAGO, June 28 .- Wheat acted queerly to-day. The weakness was easily accounted for, but the changing about of the futures, the discounting of July, and the favoritism shown for September and a few other kinks put the crowd all at sea. The market, from opening to close, was active, fickle and very delusive to the general trade. Quite an element expected better prices on the extended rains, the taking of California wheat by the conunent, and a more California wheat by the continent, and a more bullish outlook for export wheat. Many liberal operators entered the pit to buy, and did buy considerable until they found there was no limit to the selling, which was credited to a few heavy local speculators. July wheat, which, only two days ago, sold at ic premium over August, opened this morning at 80ic, with August at 79ic. Then both went down to 79ic, and the premium vanished. Then August went up je, to 791c, while July only rallied to 791c, and took its place at je discount. Still later, when the indicator was at 79% of for August, July could not be sold in the pit for 79c. The new crop futures held up better. December went off from 82% at the opening to 81% c, when the first drop of 1c occurred in July, but later it sold at 824c. September also was a favorite. There was a sharp up turn in wheat just before 1 P. M., caused by covering, and a little fright, on the belief that the selling was overdone. On this bulge July went to 79 c and August to 79 c. The market, after a few erratic minor changes, closed for the day at 79je July, 80je August and 80% September. Corn was in shape for a break to-day, and it broke. The receipts were fifty with but sixty-seven cars of No. 2 grade. There were other "bull" signs here and there, and the crowd was prepared to take corn. Prices were pretty well sustained on the start, with July at 48%, August 49% and September 50%. Later, two things conspired to send prices away down for a time. The one was the estimate of 220 cars for to-morrow, when, by the natural decrease of late, it was expected to be about 100 cars. The other was the unmerciful pounding of the markets by big local speculators. July was forced down to 47%c and August to 48%c. From these points there was a rally of about je, and before 1 P. M., on covering by the crowd, prices were: July, 48c; August, 48%c; Septem-49%c, which were virtually unchanged at the close for the day. In oats, the July delivery ranged lower early, and afterward reacted; this was about the only change of consequence in the market. Other futures were strong and the fluctuations were unimportant. Good receipts of hogs and lower prices, coupled with estimates that stocks of manufactured product, July 1, would show a large increase over June 1, induced liberal selling by packers and speculators. Trading was increased and a weaker feeling prevailed. Lard developed the most heaviness and prices declined 10c, and the last sales, at 1 o'clock, although not at extreme inside figures, were .07 a.10c below the last sales yesterday. Pork closed 5c lower. July sold at \$13.57 at 12.60. Short ribs declined .05c, but reacted a trifle, and closed at 7.50c, July. The leading futures ranged as follows: Lowest. Closing Wheat-July

INDIANAPOLIS MARKETS.

Trade Slow, with a Firm, Steady Tone to Prices Covers the Local Situation.

INDIANAPOLIS, June 28. In nearly all departments trade to-day moved sluggishly. Political matters still attract a good deal of attention. Then a summer-like duliness is coming over the markets generally. One of the remarkable features of the situation is the strong tone to prices in nearly all lines of goods. Take dry goods; fluctuations in values are very few and those usually of an unward tendency. In the drug line firm prices rule, with slight letting down in trade. Grocers are fairly busy. Coffees have become steady again, while sugars are moving in large quantities and at firm prices for all grades." The last circular of Messrs. Willett, Hamler & Co. says: "The notable feature of the week is the growing scarcity of centrifugal sugar, and a necessity on the part of buyers to pay a small advance to secure a good-sized invoice. Refiners are carrying small stocks of raws, and have an increasing demand for refined, and the month shows an increasing melting over last year. All the changes in the statistical position are in favor of higher prices. The European markets are leading ours in the advance, having made a considerable gain in prices for the week. Total stock in the four ports is 49,628 tons under last year. Total stock in all the principal countries by the latest mail and cable dates is 1,051,267 tons against 1,148,294 tons at same time last year. The Cuba crop appears to be turning out about 600,000 The reports from the growing beet crop are unfavorable for any considerable increase over last year's crop. Consumption in the United States is gaining on last year's for all sugar, foreign and domestic. The accounts are favorable as regards the growing Louisiana crop, which begins to be marketed in October. but the question of supplies to that time begins to assume increased interest, if Europe is to remain constantly above our markets in parity of values." In the produce markets there is some activity noticeable. Receipts of berries were more liberal, and they met with a very ready sale. New potatoes are becoming plenty, and prices tend lower, but have not change quotably since Monday. For good-sized ripe potatoes there is a good demand. Cabbages are in better supply, and prices rule weak. But few good apples have yet come on the market, and the present stock sells slow, being half ripe and small. Eggs, young chickens and choice butter meet with ready sale at our quotations. Good,

nineteen cars past two days. The general tone of the market is heavy, with both demand and supply small. Wheat—No. 2 red, is nominally worth 83@84c, track, On call, 83c was bid for one car; offered at 85c to arrive. Corn—White meats steady and quiet.
